

Shant Tchatalbachian

Cybersecurity Professional

EXPERIENCE

OMNITECK.com, *Cybersecurity Professional* — JANUARY 2013 - PRESENT

I specialize in Cybersecurity, Product Development, IT, and Graphic Design; and build custom applications on dedicated cloud infrastructure. I evaluate hardware and application security with targeted penetration testing and secure OS/servers using FIDO2. I also provide MDM/EMM auditing and hardening for Android, and Windows—conducting gap analyses, validating enrollment/provisioning, managing configuration drift, and enforcing app policy management.

Bastion Security Services, San Francisco, CA — DECEMBER 2024 - DECEMBER 2025

Site Security Supervisor for Trinity Place - Residential Multiplex in downtown SF

Responsibilities included maintaining site posture, officer readiness, resident issues, and CCTV monitoring operations.

Securitas Security Services Inc at ALPHABET, San Francisco, CA — SEPTEMBER 2021 - OCTOBER 2024

Site Security Supervisor for Securitas at Waymo (3 yr) & Lab-Site Security Supervisor for Securitas at Verily (3 mo)

Responsibilities include site operations, and leading the accounts HR/productivity tracking, as well as designing and implementing various apps, APIs, and creating efficient data management/access controls. Helped track the Securitas Technology deployment, developed client-facing presentations, and user experiences, informing on the budget, officer, and CCTV operations.

Glendale Holy Trinity Church, Glendale, CA — *TV Producer & Media Coordinator* 2013 - MARCH 2016

I managed the production of the crew, filming, sound, editing, and uploading for broadcast on local TV (Shant TV) and YouTube, and was in charge of managing their social media, the church's website, and the band performances.

Olitics Inc., Los Angeles — *CTO & Co-Founder* APRIL 2015 - MARCH 2016

Olitics was a non-partisan political website providing a range of services from daily news updates, information on elected officials, duties of government branches, state information, voter registration, scholarships and internships, political party information, and political terminology. Our goal was to provide a political platform to educate and inform young Americans politically and to increase awareness and engagement leading up to the 2016 elections. (pre seed fund)

EDUCATION

Burbank High School, Burbank, CA — *High School Diploma* 2010 - 2014

Activities and Societies: GSA, Photography (level 2)

Pasadena City College, Pasadena, CA — *Some Credits* 2015 - 2016

Studied Computer Information Systems and General Education

PROJECTS - omnitech.com - (Securing the software supply chain - Actualizing the [SER Framework](#))
([SLSA](#) - Static analysis - SBOMs - Attestations - Verifiable Human Provenance)

Signal Desktop [For Arm64 based Debian] 2021 - Present

This project builds Signal Desktop for Debian Trixie on Arm64. signal-desktop.omnitech.com

U-Boot Rockchip [UEFI Secureboot Arm64] 2024 - Present

This project builds bootloaders and TA's on the rk3399 & rk3588 processors. u-boot.omnitech.com

Docker Debian Snapshots [For reproducible builds] 2025 - Present

Snapshot releases of debian-dev docker images for reproducible build environments. hub.docker.com/Omnitech

Immutable PKI - Public Key Infrastructure [Attested TLS using Github actions] 2026 - Present

Fetch an index registry + attest with sigstore + release immutably, to strengthen builds to SLSA 3+. pki.omnitech.com
